

## Formal Submissions

The New Zealand government has responded to our 'Options for a CDR' submission (September 2020) and has requested a discussion around potential involvement. Data 17<sup>th</sup> February 2020.

FDATA plays an active role across Aus. and NZ with the introduction of Open Banking, Regulatory Reform to launch Consumer Data Rights, and calls for the creation of Digital Identity Frameworks. FDATA regularly provided consultation, advisory services, and advocacy with Federal Departments such as the Treasury Department in Australia, the MBIE in NZ, Privacy Offices, and Payments Regulators in both Jurisdictions, and the ACCC and Data Standards Body in Australia.

## Executive Briefing

FDATA ANZ will present to the entire executive of MYOB this week on Open Banking, the pending phasing introductions, the future of CDR in New Zealand and recent implications for MYOB.

## All-Member Calls

Our monthly AMC are increasing in participation, featuring special guests ranging from International Technologists, Risk Professionals, through the Federal Treasury representative in Daniel McAuliffe.

## Membership Growth

FDATA ANZ continues to grow our membership with notable addition for 2021 including MYOB, Experian, Payments NZ, API Metrics and True Layer. Several new members are expected to join within coming weeks.

## ACCC and Treasury Consultation

FDATA ANZ's relationship with federal regulators continues to be strong. Regular conferences are held between Treasury representatives, members of the Data Standards Board, Compliance and Enforcement divisions of the ACCC and Executives. This will continue fortnightly/more frequent if needed.

## Roundtables

Following on from September's Cloud Accounting Roundtable and given the level of engagement between the members and Daniel McAuliffe at the recent All Members' Call, FDATA ANZ will be holding two roundtables this week. The first will include members of the Cloud Accounting fraternity (XERO, INTUIT and MYOB) and will focus on those items that still require change. The second is an All Members' Roundtable to plan a strategy to provide targeted feedback to Treasury based on a request by Daniel McAuliffe and his team.

## Regular Conversations

One – on – One meeting with each member, monthly All-Member calls with special guests, blast updates of critical news and updates and open table reads on regulatory changes and updates are just some of the ways that FDATA ANZ is adding value to our members.
